COMPACT TRACK LOADERS

K-Series M-Series R-Series

One Tough Animal

INTRODUCTION

ONE TOUGH ANIMAL

BOBCAT'S HISTORY

In 1958, Melroe Manufacturing Company introduced a compact front-end loader that evolved quickly into the M400, the world's first true skid steer loader. The company soon adopted what became the world-famous 'Bobcat' brand – and its success paved the way for the global compact equipment industry we know today.

INNOVATION CENTER IN CZECH REPUBLIC

New technologies and machines are rigorously tested to take on the toughest jobs.

BOBCAT TODAY

Since introducing our first compact track loader in 1999, the new category quickly gained popularity thanks to Bobcat's decades of experience building compact loaders to the highest standards.

OUR MISSION

We empower operators to accomplish more, while working in the toughest conditions and tightest situations. When our customers have the will, we provide the way.

BUILT FOR ALL CONDITIONS

▶ OUTPERFORM ANY ENVIRONMENT

Bobcat Compact Track Loaders bring a host of performance, productivity and durability features to help you accomplish jobs that would be impossible for conventional wheeled loaders.

ROPS/FOPS protection

Optional pressurized enclosed cab with heating and air-conditioning

Remote control ready to allow advanced operation of the machine and attachments

State-of-the-art machine and attachments operation thanks to Selectable Joystick Controls option

Auto Ride Control option brings lift arms dampening effect

High-Flow Hydraulics option to double the hydraulic flow for attachments

Temporarily reverse the cooling fan direction with auto reversing fan option

Change attachments in less than a minute without leaving your seat with Hydraulic Power Bob-Tach™ option

Durable tailgate

Over 100 attachments for any kind of job
P.16

Track selection to fit all job sites

Bucket positioning keeps your bucket level when raising lift arms

▶ POWERFUL YET COMPACT

Compact footprint provides surprisingly high performance and outstanding lift capacity.

▶ ROCK SOLID AND STABLE

Unparalleled stability is critically important for applications where precision is key.

▶ UNMATCHED COMFORT

Get comfortable with several seat options, optional air conditioning and pressurized cab to keep the dust out.
P.8

▶ MAXIMUM UPTIME

A reliable, time-proven design and easy maintenance thanks to 60 years of innovation.
P.10

POWER WHERE YOU NEED IT

► GENTLE WHEN REQUIRED

The tracks' low ground pressure allows travel over sensitive areas. Increased traction ensures grip in mud or on unprepared sites and improves productivity with ground engaging attachments.

► TRULY ALL-TERRAIN

The M-Series' grip, weight distribution and optimized footprint allow travel and performance in places where other machines cannot go – uneven terrain, trenches or inclines up to 35% or 20°.

PERFORMANCE

► HIGH PERFORMANCE AT YOUR FINGERTIPS

Thanks to advanced features such as high-flow for using a variety of attachments, auto ride control for increased comfort and less spillage, and reverse fan for work in dusty environments.

► STAGE V ENGINES

Time-tested Bobcat engine technology is now Stage V compliant. Engine's compact size now packs higher torque at lower RPM while ensuring low noise levels for increased comfort. Fast recovery from overload and low fuel consumption boost your effectiveness even further.

STEP INSIDE

► PRESSURIZED CAB

Designed for demanding environments, pressurized cab option ensures that dust and dirt are kept out. With storage space and a 12V charger, this easy-to-clean cab is built to make tough jobs comfortable.

► IN ALL WEATHER CONDITIONS

Stay focused on the job all year round thanks to the direct cab temperature control that comes with air conditioning and heater options.

► DELUXE DASHBOARD

Intuitive easy-to-read control panel and keyless ignition come as standard for enhanced convenience and security.

► PERFECT SEAT

Work comfortably all day with ergonomic, easily adjustable seats with suspension options.

BUILT TO LAST

▶ LONGER UPTIME

Bobcat loaders rely on a range of features that help minimize maintenance and protect your machine: self-diagnostics, machine shutdown protection, battery run-down protection, cold weather protection and other features. What's more, M-Series track loaders feature long-lasting tracks and reliable undercarriage, which further increases uptime and gives you added peace of mind.

▶ EXTENDED SERVICE INTERVALS

Improve efficiency and reduce your operating costs thanks to extended service intervals. Bobcat recommends first service after 500 hours of operation.

▶ MACHINE IQ

BOBCAT® Machine IQ Wireless Communications enhances the support for your Bobcat machine.

- Durable built-in monitoring electronics
- Data are available to our machine monitoring specialist
- Maintenance is optimized for your business
- Data-driven services maximize uptime

▶ STANDARD WARRANTY

Bobcat Company develops every machine to the highest standards of quality and durability. That's why our standard warranty provides 24 months or 2000 operating hours (whichever occurs first) of coverage.

THERE'S NO TIME FOR DOWNTIME. STAND UP TO THE HARSHTEST CONDITIONS. DAY AFTER DAY.

▶ PROTECTION PLUS EXTENDED WARRANTY

Enjoy total peace of mind with a Protection Plus® extended warranty. Providing the same level of protection as the standard warranty, Protection Plus also reflects different customer needs and expectations by offering a choice of durations and annual operating hours. According to your needs, you can benefit from the coverage for up to 5 years or 6000 engine hours. And Protection Plus is transferrable – so it will likely increase your machine's resale value.

▶ BOBCARE

A long-running machine starts with proper planned maintenance which helps protect against repair costs and unplanned failures when you're counting on your machine to work.

- Avoid risk by preventing major repairs and complete failures.
- Accomplish more by reducing downtime and increasing your productivity and profitability.

T450

► COMPACT AND VERSATILE

With a tipping load of 2049 kg and optimized weight-to-power ratio, the T450 packs a punch despite being our smallest machine. Equipped with radial lift (designed for ground versatility) and air conditioning to make work more pleasant in any weather.

► MADE TO GO WHERE THE WORK IS

CHOOSE YOUR ANIMAL

T590

► THE POWER TO TACKLE ANY JOB

Take the most demanding jobs head-on, thanks to a powerful engine, exceptionally high tipping load of 2773 kg, and a High-Flow option. Equipped with vertical lift designed for stability in high reach, the T590 is surprisingly compact and light, making it suitable for a wide range of applications.

► CONQUER ANY CHALLENGE

STANDARD EQUIPMENT

FOR BOTH MODELS

- Automatically activated glow plugs
- Auxiliary hydraulics: variable flow/maximum flow
- Bobcat Interlock Control System (BICS)
- Bob-Tach™ frame
- CE certification
- Cushioned lift and tilt cylinders
- Deluxe instrument panel
- Deluxe operator cab* - Includes interior cab foam, side, top and rear windows, Deluxe wire harness, dome light, electrical power port
- Electrically activated proportional front auxiliary hydraulics
- Engine/hydraulics system shutdown
- Keyless start with password capability
- Lift arm support
- Machine IQ (telematics)
- Manual / Instrumentation
- Noise reduction kit
- Operating lights, front and rear
- Parking brake
- Seat bar
- Seat belt
- Suspension seat
- Turbo-charger with approved spark arrestor

FOR T450

- Tracks – rubber – 300 mm

FOR T590

- Tracks – rubber – 320 mm
- Hydraulic bucket positioning (including ON/OFF switch)

*Roll Over Protective Structure (ROPS) – meets requirements of SAE-J1040 and ISO 3471; Falling Object Protective Structure (FOPS) – meets requirements of SAE-J1043 and ISO 3449, Level I

BOBCAT ATTACHMENTS

Get more versatility and efficiency with Bobcat attachments and implements.

- The largest choice of attachments in the industry
- Match performance to your Bobcat machine
- Work harder with stronger components and construction.
- Rest easy with the 12-month warranty on every genuine Bobcat attachment.

Actual attachment compatibility may vary based on different machine configurations. Contact your dealer for actual attachment compatibility.
